## Fan Belt Arrangement - Water Pump 58-103

**Application:** AMC/Jeep 4 Cyl., 6 Cyl., 1980 - 1989.

This Water Pump has CLOCKWISE rotation. Check your belt arrangement per diagram shown below.

**Note:** Do not install this water pump on engines with a serpentine belt and counter-clockwise rotating water pumps. If this is done, THIS WILL VOID THE WARRANTY.

**Caution:** USING THE WRONG WATER PUMP WILL OVERHEAT THE ENGINE RESULTING IN ENGINE DAMAGE.

# Water Pumps

## Remanufactured Best by CARDONE<sup>®</sup>

- Smog Air Pumps
- Vacuum Pumps
- Water Pumps

**Bearings** - Because CARDONE insists on high quality and reliability in every part, our use of bearings is dependent upon the type of application.

Ball/Ball bearings are used mainly on passenger cars and light duty truck applications. Ball/Roller bearings are used mainly on high torque applications, because they are more durable. This is because the roller takes up more surface area on the shaft.

CARDONE recognizes that high torque applications require Ball/Roller bearings. Therefore, when required, CARDONE will replace Ball/Roller bearings with Ball/Roller and **not substitute** a Ball/Ball bearing like some competitors. In various instances, a water pump with an OEM supplied Ball/Ball bearing is **upgraded** to a Ball/Roller bearing in order to better meet the application requirements.

Ball/Roller

Ball/Ball

- 36 month or 36,000 mile warranty
